

## Figure Classification

### Directions

In the Figure Classification subtest, each question has two rows of figures. In the top row, the student is given a set of three figures that are similar in some way. Students must determine how they are similar and then select the figure from the available answers that is most similar to the pictures on the top row.

### Sample Question

The correct answer is D, the white circle. D is the answer you would mark on the bubble test form or in the available answer field\*.

\* Answer fields will not be in your child's exam workbook. Bubble test forms are typically used during the exam and marking your answers on a bubble test form as they do the practice test is recommended.
